EDUCATION

B.E in Information Technology | Pune Institute of Computer Technology (PICT) Grad 2027 | CGPA: 9.84
Class XII | Suryadatta Public School, Pune Grad 2023 | 88.0%
Class X | Sri Sri Ravishankar Vidya Mandir, Pune Grad 2021 | 97.8%

SKILLS

- **Languages:** Java, Python, C++, JavaScript, SQL
- **Frameworks:** React, Node.js, Spring Boot, Express.js, FastAPI, REST APIs, GraphQL
- **AI / ML:** PyTorch, TensorFlow, Scikit-Learn, OpenCV, YOLOv8, LLMs, RAG
- **Databases:** MongoDB, PostgreSQL
- **Core:** DSA, OOP, DBMS, Operating Systems, Computer Networks, Git, Docker

EXPERIENCE

- **Software Developer Intern – Barclays India** June 2026 – Aug 2026
 - Developed a full-stack banking application in **Java, Spring Boot, React, and PostgreSQL** for client onboarding.
 - Designed REST APIs for document management and workflow automation used in 3 internal teams.
 - Added role-based access and status dashboards so relationship managers and Operations teams can track applications in real time.
- **AI Engineer – Tenancy Passport** Oct 2025 – May 2026
 - Engineered **agentic AI** workflows with **LLMs and RAG** to automate tenant support and cut response time.
 - Refactored a monolithic agent into modular **orchestrator-based** services, making the system easier to test.
 - Led a team of six interns, reviewing code and coordinating sprints to keep releases on schedule.
- **Computer Vision Engineer Intern – Thelios.ai** July 2025 – Oct 2025
 - Fine-tuned a **ResNet-18** classifier, reaching **93% accuracy** using temporal smoothing to reduce flicker.
 - Implemented computer vision pipelines for tracking, re-identification, and automated model evaluation.
 - Used Grad-CAM to debug and IoU checks to catch tracker ID switches before deployment.

PROJECTS

- **Dainik-Vidya – Daily News Intelligence** [[GitHub](#)]
 - Created a news aggregation platform that scrapes sources and provides curated news to users.
 - Shipped a scalable **FastAPI, MongoDB, and React** application with automated email digests.
- **Face Detection & Lecture Attendance System** [[GitHub](#)]
 - Developed a real-time face detection pipeline with **YOLOv8** to identify students from classroom footage.
 - Added **OCR** to read roll numbers and auto-mark attendance, cutting manual admin work.
- **Player Identification and Tracking System** [[GitHub](#)]
 - Engineered a multi-object tracker with **YOLOv8** detection, **ByteTrack**, and **ResNet50** re-identification.
 - Combined IoU, deep feature similarity, and Kalman filter motion prediction to maintain consistency.

ACHIEVEMENTS & LEADERSHIP

- **Machine Learning Head & PR Officer** – PICT IEEE
- **Research & Technology Lead** – Forengers NGO
- Pursuing **Honours in Data Science**
- **IEEE TechRush24** – 1st Place (Machine Learning)
- **Andrew Ng Machine Learning Specialization**
